SPECIALTY CARE

Wound Care

Bringing Comfort and Healing into Your Home

VNA Wound Care is designed to help you manage difficult wound, ostomy, or incontinence conditions, while allowing you to:

- Remain in your home
- Maintain the highest quality of life
- Minimize re-hospitalizations
- Develop increased independence
- Coordinate care with your personal physician
- Receive KCI Wound V.A.C.® therapy when needed

Specialized Care for Your Individual Needs

VNA Wound Care is coordinated through a VNA registered nurse with:

- Certification in Wound/Ostomy/Continence care (CWOCN)
- 33 years nursing experience – 20 years with VNA
- Years of hospital experience, both in ICU and general nursing
- Treatment focused on your:
 - Disease and diet management education
 - Healing
 - Independence
 - Overall quality of life
 - All nurses are KCI Wound V.A.C.® trained

- Stoma Care
 - Visiting all new ostomy patients
 - Visiting all existing ostomates with stoma complications
 - Assisting you with self-management and choosing appropriate appliance(s)
 - Instruction and assistance in ordering ostomy supplies
 - Stoma site marking
- Continence Care
 - Providing consult for catheter management to minimize urinary tract infections
 - Instruction in catheter care
 - Instruction in nutrition/hydration in lifestyle management

A Teaching Approach to Patient Care

Essential components of VNA's approach to delivering your wound care include:

- Professionally trained and certified personnel
- Timely communication with all involved in your care
- Teaching you to be independent in your healthcare
- Ongoing staff training
- Large resource of supplies
- After-hours unit for patients

The VNA nurse and treatment team will assist you and your family with:

- Recognizing signs and symptoms of worsening of disease
- Providing on-call nurse 24 hours a day, 7 days a week, to assist with complications when on VNA service
- Advising when additional services might be needed

Professionals Provide You with Quality Care, Including:

- Wound Care
 - Consulting on all complicated wounds to allow you to remain in your home for wound recovery
 - Recommending wound care plans
