

VNA CARE CHOICES – HOME-BASED SUPPORTIVE PALLIATIVE CARE

Visiting Nurse Association

Meals on Wheels
Hospice & Palliative Care

Because living with a serious illness is difficult, you and your loved ones may need more support. VNA Care Choices provides in-home supportive palliative care and care navigation as you continue to receive curative treatment from your current health care providers.

A Team Approach

Your supportive palliative care team is here to manage symptoms while providing spiritual, social, and emotional support.

- Registered Nurse Case Manager
- 24/7 Nurse Access
- Medical Social Worker
- Pharmacist
- Chaplain
- VNA Palliative Care Physician
- VNA Nurse Practitioner (NP)
- Your Physician or Specialist

Customized Care

VNA's goal is to provide the highest quality of life possible through:

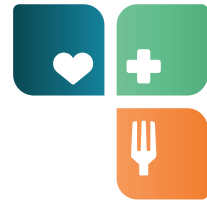

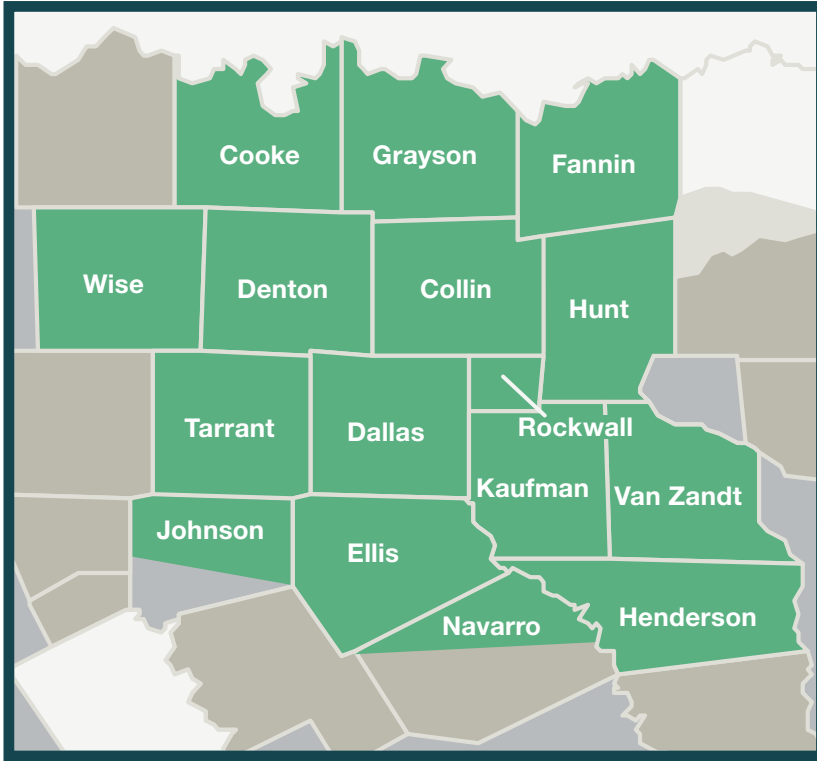

- Disease education for patient and caregivers
- Expert pain and symptom management
- Medication review
- Prevention of unnecessary hospitalizations and ER visits
- Emotional and spiritual support
- Care coordination with your doctors and health care clinicians
- Communication between you and your physicians regarding treatment
- Advanced Care Planning
- Goals of care discussion
- Assess and recommend appropriate level of care

Getting Started

At your initial visit, your RN Case Manager will complete a comprehensive assessment of your physical, emotional, spiritual, and medication needs. The nurse will review your medical history and discuss your current situation, goals, and wishes. We highly encourage your family and caregivers to be present, as we consider them a part of your care team. At that time, scheduling of other clinical services will be discussed, in addition to planning future visits with your RN Case Manager.
